

Oktana Website Redesign — Full Spec & Copy

This document is the complete website specification for the Oktana.com redesign — including site architecture, navigation structure, page-by-page layout specs, and all section-level copy. It is informed by Oktana's brand identity, positioning strategy, and leading B2B website design trends for 2026.

1. Design Philosophy & Principles

The new Oktana.com is built around a single premise: **the website is Oktana's best salesperson**. Every page should move a qualified visitor closer to a conversation. The design philosophy follows six core principles:

- **Outcome-first messaging:** Lead every section with what the visitor gains — not what Oktana does. "Your Salesforce org, AI-ready" lands harder than "we offer AI implementation."
- **Proof over claims:** Social proof (4.9/5 CSAT, 1,000+ projects, 4–5 year relationships) appears above the fold and on every service page. Let data carry the persuasion.
- **Conversion at every scroll:** Primary CTAs ("Talk to Us" or "Start a Conversation") appear in the hero, at mid-page, and at the footer of every page. No dead ends.
- **Clean, minimal, modern:** Generous whitespace, strong typographic hierarchy, subtle scroll-triggered animations. No clutter. The design signals the quality of the work.
- **Industry-aware:** Industry vertical pages speak the language of each sector — Healthcare talks compliance; Fintech talks automation and security; High Tech talks scale and speed.
- **AI-forward:** Agentforce and AI readiness are the headline positioning. Every service page threads this narrative — Oktana prepares companies for what's next, not just what's now.

Visual Identity Notes

- **Typography:** Bold, modern sans-serif for headlines. Clean body font for readability.
- **Color:** Salesforce-adjacent blues and whites as the base palette; accent color for CTAs that pops against the clean background.
- **Imagery:** Mix of team/culture photography (LatAm offices, real people) and abstract technology visuals. Authentic over stock.
- **Animations:** Scroll-triggered counter animations for stats (250+, 1,000+, 4.9/5). Subtle fade-ins for section transitions. No autoplay video in hero — opt for a static or scroll-animated background.
- **Mobile-first:** All layouts spec'd for mobile; desktop is the enhancement, not the default.

Color Palette

The following palette is derived from Oktana's existing brand identity. All hex values are confirmed from the live site and should be applied consistently across the redesign.

Role	Hex	Usage

Primary	#514FAB	Logo, primary nav, hero text accents, section headers. The core brand color — a medium indigo-blue that signals trust and expertise.
Secondary / Dark	#292966	Dark hero backgrounds, footer, CTA bands, full-bleed sections requiring depth. Pairs with white text for strong contrast.
Accent (CTA)	#F0AD4E	All primary CTA buttons ("Talk to Our Team," "Start a Conversation"). Used sparingly to draw the eye — never as a background color. Creates clear contrast against both light and dark backgrounds.
Subtle Accent	#6563D6	Icon fills, hover states, service card highlights, stat labels. A lighter variation of the primary that prevents visual monotony without breaking brand consistency.
Neutral Background	#F8F9FC	Page backgrounds and card surfaces. A clean, near-white with a slight cool tint — keeps the site airy without being stark white.
Light Neutral	#CCD6DF	Dividers, section separators, input borders, secondary card backgrounds. Provides visual structure without competing with primary content.

Body Text	#33373D	All body copy. A dark charcoal (not pure black) for a softer reading experience. Use pure white (#FFFFFF) for text on dark or Primary-colored backgrounds.
-----------	---------	--

Key usage rules: The **#292966 dark navy** and **#F0AD4E amber** pairing is the highest-contrast, highest-impact combination — reserve it for CTA bands and conversion-critical moments. The **#514FAB primary** and **#F8F9FC background** pairing defines the standard page experience. Never use the accent amber as a text color.

2. Site Architecture & Navigation

Primary Navigation (Mega Menu)

Nav Item	Dropdown / Sub-pages
Services	- AI & Agentforce - Salesforce Consulting & Implementation - Salesforce Optimization & Managed Services - MuleSoft & Integrations - Data & Analytics - Digital Engineering & Staff Augmentation - UI/UX Design
Industries	- Healthcare & Life Sciences - Financial Services & Fintech - High Tech & SaaS - Nonprofit - U.S. Public Sector - Consumer Goods
Why Oktana	- About Us - Our Team - Social Responsibility - Compliance & Security - Careers

Resources	• Success Stories • Blog • Salesforce Pricing Calculator
Contact Us (<i>CTA Button</i>)	Direct link to contact page — always visible in nav bar as a filled button

Footer Structure

- **Column 1:** Logo + tagline ("We Help Companies Prepare for AI") + social icons (LinkedIn, GitHub)
- **Column 2:** Services links
- **Column 3:** Industries links
- **Column 4:** Company links (About, Team, Responsibility, Compliance, Careers, Blog, Contact)
- **Bottom bar:** Copyright, Privacy Policy, SOC 2 badge, Salesforce Summit Partner badge

3. Homepage

Page Goal: Establish Oktana's AI-forward, Summit-tier positioning immediately. Qualify the visitor by industry and need. Drive a "Contact Us" conversion or exploration deeper into the site.

SEO Title: Oktana | Salesforce Summit Partner & AI Implementation Specialist

Meta Description: Oktana is a Salesforce Summit Consulting Partner helping U.S. enterprises implement AI, optimize their Salesforce org, and scale with nearshore experts. 4.9/5 CSAT. 1,000+ projects.

Section 1: Hero

Full-width hero. Large headline. Subheadline. Two CTAs. Trust badges below the fold line.

- **Headline:** Your Salesforce org. AI-ready.
- **Subheadline:** Oktana is the nearshore Salesforce Summit Partner helping U.S. enterprises implement AI, eliminate technical debt, and build the systems that power the next decade of growth.
- **Primary CTA:** Talk to Our Team '
- **Secondary CTA:** See Our Work (links to Success Stories)
- **Trust strip (below headline):** Salesforce Summit Partner badge | SOC 2 Certified | 4.9/5 CSAT | 1,000+ Projects

Section 2: Stats Bar

Full-width band with scroll-animated counters. 4 stats side-by-side.

- **250+** — Salesforce Experts
- **1,000+** — Projects Delivered
- **4.9/5** — CSAT Score
- **4–5 yrs** — Avg. Customer Relationship

Section 3: What We Do

Grid of service cards (2 columns on mobile, 3–4 on desktop). Each card has an icon, title, one-line description, and a "Learn more" link.

Eyebrow: Our Services

Headline: Everything your Salesforce ecosystem needs — under one roof.

- **AI & Agentforce** — Design and deploy AI agents and workflows on the Salesforce platform.
- **Salesforce Implementation** — End-to-end project delivery from ideation to go-live, in any Salesforce cloud.
- **Managed Services & Optimization** — Keep your org healthy, scalable, and debt-free with ongoing managed support.
- **MuleSoft & Integrations** — Connect every system in your stack with enterprise-grade API management.
- **Data & Analytics** — Unlock insights with Salesforce Data Cloud, Snowflake, and Einstein Analytics.
- **Digital Engineering & Staff Aug** — Extend your team with senior nearshore engineers across any stack or framework.
- **UI/UX Design** — Beautiful, functional interfaces for Experience Cloud, portals, and custom apps.

Section 4: Why Oktana

Two-column layout: headline + supporting paragraph left; 4 differentiator pillars right (icon + title + one-liner each).

Headline: The partner who stays — long after go-live.

Most consultants deliver the project and move on. Oktana's customers keep coming back — with an average engagement of over four years. We treat your Salesforce org like our own: we're accountable for outcomes, not just deliverables.

- **Summit-Tier Expertise:** 900+ Salesforce certifications across our team. Less than 10% of partners ever reach Summit tier.
- **Nearshore Advantage:** Senior LatAm talent in your time zone, at competitive rates. No offshore delays, no time zone friction.
- **Enterprise Trust:** SOC 2 certified. Onshore resources available for regulated industries.
- **Real Accountability:** Dedicated account managers, transparent T&M billing, performance dashboards. You always know where you stand.

Section 5: Industries We Serve

Horizontal scrollable row of industry tiles. Each tile links to the respective industry page.

Headline: Built for your industry's complexity.

- Healthcare & Life Sciences
- Financial Services & Fintech
- High Tech & SaaS

- Nonprofit
- U.S. Public Sector
- Consumer Goods

Section 6: Featured Success Stories

3-card carousel or grid. Each card: industry tag, headline, 1–2 sentence description, "Read the story" link.

Headline: Proof, not promises.

- **[Healthcare]** How we built a compliant patient-provider portal for a national health system — on time, on budget, fully HIPAA-aligned.
- **[Fintech]** QA automation that cut regression testing time by 60% for a U.S. fintech scaling its Salesforce org.
- **[High Tech]** Building a scalable API developer community with MuleSoft Anypoint for a global software company.

CTA: View All Success Stories '

Section 7: Mid-Page CTA Band

Full-width colored band. Centered headline + button. High contrast.

- **Headline:** Ready to get more from Salesforce?
- **Subtext:** Whether you're starting fresh, optimizing what you have, or deploying AI agents — we've done it before. Let's talk.
- **CTA Button:** Start a Conversation '

Section 8: Our Mission

Two-column: text left, team/culture image right (authentic LatAm office photo).

Eyebrow: Why We Do This

Headline: Great technology. Greater impact.

Oktana was founded on a simple belief: that world-class engineering talent exists far beyond Silicon Valley. We built a company that brings economic opportunity to growing communities across Latin America — while delivering the kind of technical work that keeps our clients coming back for years. Curious, collaborative, authentic, and accountable — that's who we are.

Link: Learn more about our mission '

Section 9: Partner Logos / Trust Strip

Greyscale logo row. Salesforce, MuleSoft, Snowflake, Agentforce badge, SOC 2 badge.

Eyebrow: Trusted Partners & Certifications

Section 10: Latest from the Blog

3 most recent blog post cards: thumbnail, tag, title, date, read more link.

Headline: From our team to yours.

CTA: Visit the Blog '

4. Service Pages

Each service page follows the same layout template: Hero ' Stats ' What We Do (specifics) ' How We Work ' Why Oktana ' Related Success Stories ' CTA Band. Copy varies by service.

4.1 AI & Agentforce

URL: /services/ai-agentforce | **SEO Title:** AI & Agentforce Implementation | Oktana Salesforce Partner

Meta: Oktana helps enterprises design and deploy AI agents and autonomous workflows on the Salesforce Agentforce platform. Summit-tier Salesforce partner. 900+ certs.

- **Hero Headline:** AI is only as powerful as the data behind it. Let's build yours right.
- **Hero Subheadline:** Oktana helps enterprises design, deploy, and scale AI agents and automated workflows on the Salesforce platform — starting with the data architecture that makes them actually work.
- **CTA:** Talk to an AI Specialist '
- **What We Deliver (bullet list):**
 - Agentforce agent design, configuration, and deployment
 - Einstein AI integration and model configuration
 - Data Cloud setup for AI-ready data unification
 - Salesforce Flow and automation strategy
 - AI readiness assessments for existing orgs
 - Prompt engineering and LLM integration with Salesforce APIs
- **Section Headline — "Why AI starts with your data":** An AI agent is only as smart as the data it draws from. Before you build, you need clean, connected, structured data. Oktana ensures your Salesforce org is architecturally ready to run AI at scale — not just deployed, but designed to improve over time.
- **Proof Point:** 900+ Salesforce certifications | Official Agentforce implementation partner | 1,000+ projects delivered
- **CTA Band:** Ready to put AI to work? Let's start with your data. ' Talk to Our Team

4.2 Salesforce Consulting & Implementation

URL: /services/salesforce-consulting | **SEO Title:** Salesforce Consulting & Implementation Services | Oktana

Meta: Oktana is a Salesforce Summit Partner delivering end-to-end implementation across Sales Cloud, Service Cloud, Experience Cloud, and more. 1,000+ projects. 4.9/5 CSAT.

- **Hero Headline:** From ideation to go-live — and every sprint in between.
- **Hero Subheadline:** Oktana delivers Salesforce implementations that are built right the first time. No shortcuts, no technical debt handed off at go-live. Just a working system and a team that knows it inside out.
- **CTA:** Start Your Project '
- **What We Deliver:**

- Sales Cloud, Service Cloud, Experience Cloud, Marketing Cloud, Health Cloud, Financial Services Cloud
- Custom Apex and LWC development
- AppExchange app development and publishing
- Data migration and legacy system retirement
- Multi-cloud architecture and implementation
- User training and change management support
- **How We Work Section Headline:** Agile. Transparent. No surprises.
- **How We Work Body:** Every engagement is staffed with an account manager, delivery manager, and a team lead. You get sprint reviews, performance dashboards, and transparent T&M billing. We don't disappear between milestones.
- **Social Proof:** "Since 2014, we've delivered 1,000+ projects with a 4.9/5 CSAT score. Our average customer relationship is 4–5 years — because we earn your trust every sprint."
- **CTA Band:** Let's scope your project together. ' Schedule a Free Discovery Call

4.3 Salesforce Optimization & Managed Services

URL: /services/managed-services | **SEO Title:** Salesforce Managed Services & Optimization | Oktana

Meta: Ongoing Salesforce health, technical debt reduction, and multi-cloud managed services from a Summit-tier partner. Available onshore and nearshore.

- **Hero Headline:** Your Salesforce org deserves more than a go-live handoff.
- **Hero Subheadline:** Technical debt accumulates. Adoption drifts. Releases break things. Oktana's managed services team keeps your org healthy, scalable, and continuously optimized — so your team can focus on the work that matters.
- **CTA:** Audit My Org ' '
- **What We Do:**
 - Org health assessments and technical debt reduction
 - Ongoing development, maintenance, and release management
 - Multi-cloud managed services across all Salesforce products
 - Performance monitoring and reporting
 - Security and compliance reviews
 - AI and feature adoption planning
- **Feature Callout:** "Most of our implementation projects evolve into long-term managed services partnerships — because our clients know we understand their org better than anyone."
- **CTA Band:** Is your org running at peak performance? Find out. ' Get an Org Assessment

4.4 MuleSoft & Integrations

URL: /services/mulesoft-integrations | **SEO Title:** MuleSoft & Salesforce Integration Services | Oktana

Meta: Oktana designs and builds enterprise integrations using MuleSoft Anypoint, REST APIs, and custom middleware — connecting Salesforce to any system in your stack.

- **Hero Headline:** Your systems should talk to each other. We make it happen.
- **Hero Subheadline:** Data silos kill efficiency and delay AI adoption. Oktana's integration team connects Salesforce to every system in your stack using MuleSoft Anypoint, custom APIs, and proven enterprise patterns.
- **CTA:** Map My Integration Architecture '
- **What We Deliver:**
 - MuleSoft Anypoint Platform implementation and management
 - REST and SOAP API development and management
 - Salesforce-to-ERP, HRIS, and legacy system integrations
 - API-led connectivity design and architecture
 - Integration testing and monitoring
 - Data orchestration and transformation
- **Story Reference:** "We built a scalable API developer community on MuleSoft Anypoint for a global software company — creating a reusable integration backbone that now powers their entire ecosystem."
- **CTA Band:** Ready to break down your data silos? ' Talk to an Integration Expert

4.5 Data & Analytics

URL: /services/data-analytics | **SEO Title:** Salesforce Data Cloud & Analytics Services | Oktana

Meta: Unlock the value of your data with Salesforce Data Cloud, Snowflake, and Einstein Analytics. Oktana helps enterprises build the data infrastructure AI requires.

- **Hero Headline:** Your data is your competitive advantage. We help you use it.
- **Hero Subheadline:** AI doesn't run on empty promises — it runs on clean, connected, structured data. Oktana helps enterprises build a data foundation on Salesforce Data Cloud and Snowflake that powers real-time insight and autonomous AI.
- **CTA:** Assess My Data Readiness '
- **What We Deliver:**
 - Salesforce Data Cloud design, implementation, and governance
 - Snowflake data warehouse strategy and build
 - Einstein Analytics and Tableau CRM dashboards
 - Data migration, cleansing, and unification
 - Custom reporting and KPI tracking
 - AI-readiness data architecture reviews
- **Insight Callout:** "AI is only as smart as your data. We start every engagement by auditing your data architecture — then we build the infrastructure that makes your AI investments actually pay off."
- **CTA Band:** Let's make your data work harder. ' Start a Data Conversation

4.6 Digital Engineering & Staff Augmentation

URL: /services/digital-engineering | **SEO Title:** Salesforce Staff Augmentation & Digital Engineering | Oktana

Meta: Extend your team with senior Salesforce developers, QA engineers, architects, and UI/UX designers — nearshore and onshore, in your time zone. Flexible T&M model.

- **Hero Headline:** Need 2 devs and a QA? We've got them — ready to work in your time zone.
- **Hero Subheadline:** Oktana's digital engineering team scales with your needs. From a single embedded Salesforce developer to a full pod of architects, scrum masters, QA, and designers — we build the team your project requires.
- **CTA:** Build My Team '
- **Roles We Place:**
 - Salesforce Developers (Apex, LWC, Visualforce)
 - MuleSoft Engineers
 - Salesforce Architects and Technical Leads
 - QA Engineers and Test Automation Specialists
 - UI/UX Designers
 - Business Analysts and Scrum Masters
 - Full-stack and Data Engineers
- **The Nearshore Model section:**
 - **Headline:** Enterprise-grade talent. Nearshore efficiency.
 - **Body:** Our Latin America delivery centers are staffed with senior engineers who've built careers in Salesforce and adjacent technologies. They work in your time zone, collaborate in your sprints, and hold the same quality bar as any U.S.-based hire — at rates that don't require budget committee approval.
- **Why We're Different:**
 - Transparent T&M billing — pay for hours worked, not padded estimates
 - Scale up or down as your project demands shift
 - Dedicated account manager and delivery manager on every engagement
 - Continuous training — Oktana invests in certifications for every team member
- **CTA Band:** Tell us what you need. We'll build the team. ' Get a Team Assessment

4.7 UI/UX Design

URL: /services/ui-ux-design | **SEO Title:** Salesforce UI/UX Design Services | Experience Cloud & Custom Apps | Oktana

Meta: Oktana's design team builds intuitive, beautiful user experiences for Salesforce Experience Cloud, customer portals, and custom apps. User-centered. Brand-aligned.

- **Hero Headline:** Great software is built to be used — not just built.
- **Hero Subheadline:** Oktana's design team creates Salesforce experiences that drive adoption, reduce support tickets, and make your users actually want to log in. From discovery and wireframes to pixel-perfect delivery.

- **CTA:** Talk to Our Design Team '
- **What We Design:**
 - Salesforce Experience Cloud portals and communities
 - Custom Lightning component interfaces
 - Mobile and web app UI for Salesforce-connected systems
 - Customer self-service portals
 - Partner and dealer portals
 - Internal operations dashboards
- **Our Process (timeline/steps layout):** Discovery ' User Research ' Wireframes ' Prototype ' Design Handoff ' Dev Collaboration ' QA
- **CTA Band:** Let's design something your users will love. ' Schedule a Design Discovery

5. Industry Pages

Each industry page follows the same template: Hero (industry-specific pain point) ' Industry Context (why Salesforce matters here) ' Services We Provide in This Vertical ' Compliance / Trust callout (where relevant) ' Success Story ' CTA Band. Copy below is fully tailored per industry.

5.1 Healthcare & Life Sciences

URL: /industries/healthcare | **SEO Title:** Salesforce for Healthcare & Life Sciences | Oktana

Meta: Oktana delivers HIPAA-compliant Salesforce implementations for health systems, payers, and life sciences companies. Health Cloud, patient portals, and AI — done right.

- **Hero Headline:** Healthcare moves fast. Your Salesforce platform should too.
- **Hero Subheadline:** From patient engagement portals to care coordination workflows, Oktana helps healthcare and life sciences organizations unlock the full potential of Salesforce Health Cloud — with the HIPAA compliance and onshore availability your organization requires.
- **CTA:** Talk to a Healthcare Specialist '
- **Industry Context:** Healthcare organizations face a unique set of demands: patient data security, complex payer-provider relationships, regulatory compliance, and the pressure to do more with constrained IT budgets. Salesforce Health Cloud is purpose-built for this world. But getting it right requires a partner who has done it before.
- **What We Deliver:**
 - Salesforce Health Cloud implementation and customization
 - Patient and member portal development (Experience Cloud)
 - Care coordination and case management workflows
 - HIPAA-compliant data architecture and integrations
 - EHR/EMR integrations (Epic, Cerner, and others)
 - Referral management and provider relationship management
 - AI-powered patient engagement and triage automation

- **Trust Callout:** SOC 2 certified. Onshore resources available for HIPAA-sensitive environments. We maintain rigorous data governance standards across every healthcare engagement.
- **CTA Band:** Let's build a Salesforce environment your clinical and operational teams can trust. ' Schedule a Healthcare Discovery Call

5.2 Financial Services & Fintech

URL: /industries/financial-services | **SEO Title:** Salesforce for Financial Services & Fintech | Oktana

Meta: Oktana builds SOC 2 compliant Salesforce solutions for banks, wealth managers, insurance companies, and fintechs. Financial Services Cloud, automation, and AI — in your time zone.

- **Hero Headline:** In financial services, the margin for error is zero. So is ours.
- **Hero Subheadline:** Oktana helps banks, wealth managers, insurance companies, and fintech firms build Salesforce systems that automate compliance, accelerate client onboarding, and surface the insights that drive better decisions.
- **CTA:** Talk to a Financial Services Specialist '
- **Industry Context:** Financial services firms need Salesforce to do more than manage contacts. They need it to enforce compliance workflows, automate KYC/AML processes, connect to core banking and trading systems, and deliver personalized client experiences at scale. That's exactly what we build.
- **What We Deliver:**
 - Salesforce Financial Services Cloud implementation
 - Client onboarding and KYC workflow automation
 - Advisor and relationship manager portals
 - Core banking, trading, and insurance system integrations
 - Regulatory compliance automation (SOX, FINRA, GDPR)
 - AI-powered lead scoring and churn prediction
 - QA automation for compliance-critical releases
- **Trust Callout:** SOC 2 certified. We bring the same compliance rigor to our own operations that we help our clients enforce in theirs.
- **CTA Band:** Let's build a Salesforce environment your compliance team will love. ' Talk to a Financial Services Expert

5.3 High Tech & SaaS

URL: /industries/high-tech | **SEO Title:** Salesforce for High Tech & SaaS Companies | Oktana

Meta: Oktana helps high-growth tech and SaaS companies scale their Salesforce orgs, build AppExchange apps, and deploy AI-powered automation. Move fast without breaking things.

- **Hero Headline:** Build fast. Scale smart. Don't break Salesforce.
- **Hero Subheadline:** High-tech companies move fast. Oktana helps SaaS companies, software vendors, and technology firms build scalable Salesforce architectures that keep pace with growth — without creating the technical debt that slows you down two years later.

- **CTA:** Talk to a High Tech Specialist ' '
- **Industry Context:** SaaS and tech companies face a unique Salesforce challenge: they're often Salesforce customers and Salesforce ecosystem players simultaneously. They need AppExchange apps, developer communities, partner portals, and complex CPQ and subscription billing integrations — all on a platform that has to scale with their product.
- **What We Deliver:**
 - AppExchange app development, security review, and publishing
 - Salesforce CPQ and subscription billing implementations
 - Developer community and API portal builds (MuleSoft Anypoint)
 - Partner relationship management (PRM) portals
 - Salesforce org architecture reviews and scalability planning
 - AI-powered sales automation and pipeline intelligence
 - QA automation and continuous testing pipelines
- **CTA Band:** Let's scale your Salesforce org as fast as you scale your product. ' Talk to Our High Tech Team

5.4 Nonprofit

URL: /industries/nonprofit | **SEO Title:** Salesforce for Nonprofits | NPSP & NPC Implementation | Oktana

Meta: Oktana helps nonprofits implement and optimize Salesforce Nonprofit Success Pack (NPSP) and Nonprofit Cloud. Donor management, program delivery, and case management — built for mission.

- **Hero Headline:** Your mission deserves technology that works as hard as you do.
- **Hero Subheadline:** Oktana helps nonprofit organizations implement Salesforce solutions that streamline donor management, program delivery, and case management — so your team can focus on impact, not spreadsheets.
- **CTA:** Talk to Our Nonprofit Team ' '
- **Industry Context:** Nonprofits are asked to do more with less every year. Salesforce Nonprofit Cloud and NPSP can transform how you manage relationships, track outcomes, and report to funders — but only when implemented by a team that understands both the platform and the mission-driven context.
- **What We Deliver:**
 - Salesforce NPSP and Nonprofit Cloud (NPC) implementation
 - Donor management, major gift tracking, and fundraising automation
 - Constituent and volunteer portals (Experience Cloud)
 - Program and case management workflows
 - Grant management and reporting
 - Data migration from legacy CRMs (Raiser's Edge, Bloomerang, etc.)
 - Custom reports and dashboards for board and funder reporting
- **CTA Band:** Let's build the Salesforce org your mission deserves. ' Schedule a Nonprofit Discovery Call

5.5 U.S. Public Sector

URL: /industries/public-sector | **SEO Title:** Salesforce for U.S. Government & Public Sector | Oktana

Meta: Oktana supports U.S. federal, state, and local government agencies with onshore Salesforce implementation, compliance-first architecture, and citizen engagement solutions.

- **Hero Headline:** Government agencies deserve modern technology — and the teams to implement it.
- **Hero Subheadline:** Oktana provides U.S. public sector agencies with onshore Salesforce implementation expertise, compliance-first architectures, and citizen-centered digital experiences — all from teams who understand the unique requirements of government work.
- **CTA:** Talk to Our Public Sector Team ' '
- **What We Deliver:**
 - Salesforce Government Cloud implementations
 - Citizen engagement and self-service portals
 - Case management and constituent services automation
 - FedRAMP-compliant data architecture
 - Legacy system migration and modernization
 - Onshore-only delivery available for sensitive environments
- **Trust Callout:** SOC 2 certified. Onshore resources available. We understand the compliance, procurement, and security requirements of U.S. government engagement.
- **CTA Band:** Ready to modernize your citizen services? Let's talk. ' ' Contact Our Public Sector Team

5.6 Consumer Goods

URL: /industries/consumer-goods | **SEO Title:** Salesforce for Consumer Goods Companies | Oktana

Meta: Oktana helps consumer goods brands optimize B2B and B2C commerce, build partner portals, and automate field service and trade promotion on Salesforce.

- **Hero Headline:** Connect your brand to your buyers — and everyone in between.
- **Hero Subheadline:** Consumer goods companies manage complex webs of retailers, distributors, field reps, and end consumers. Oktana helps you connect all of them on Salesforce — with commerce, partner portals, and field service solutions built for how your business actually works.
- **CTA:** Talk to a Consumer Goods Specialist ' '
- **What We Deliver:**
 - B2B and D2C commerce on Salesforce Commerce Cloud
 - Distributor and retailer partner portals (Experience Cloud)
 - Field service and trade promotion management
 - Supply chain and ERP integrations via MuleSoft
 - Consumer loyalty and personalization programs
 - AI-powered demand forecasting and account insights
- **CTA Band:** Let's build the Salesforce ecosystem your brand runs on. ' ' Start a Consumer Goods Conversation

6. Why Oktana Pages

6.1 About Us

URL: /about | **SEO Title:** About Oktana | Salesforce Summit Partner Since 2014

Meta: Oktana is a Salesforce Summit Consulting Partner founded in 2014. 250+ experts. 1,000+ projects. A mission to bring economic opportunity to Latin America.

- **Hero Headline:** We've been building for the long term since day one.
- **Hero Subheadline:** Oktana was founded in 2014 with a simple idea: that great Salesforce engineering could come from anywhere — and that building the best team meant investing in people, not just projects.
- **Our Story Section:**
 - **Headline:** From a small team with big ambitions — to 250+ experts across the Americas.
 - **Body:** In 2014, Oktana launched as a Salesforce consulting firm with a simple mission: deliver excellent work and build real partnerships. A decade later, we've delivered over 1,000 projects, earned Salesforce Summit Partner status three years running, and built delivery centers across Latin America that are certified as Great Places to Work. The work has grown. The mission hasn't changed.
- **Timeline Section:** 2014 — Founded | 2016 — First major enterprise client | 2019 — MuleSoft practice launch | 2021 — SOC 2 certification | 2022 — Summit Partner status | 2024 — Agentforce practice launch | 2025 — 1,000+ projects milestone
- **Our Values Section (4-column grid):**
 - **Curious:** We ask why. We continuously train. We don't stop learning. New tech doesn't intimidate us — it motivates us.
 - **Collaborative:** We work as one team. Yours and ours. We improvise, adapt, and overcome together.
 - **Authentic:** We lead with transparency. We say what we mean, deliver what we promise, and own our mistakes.
 - **Owners:** Blocked is an unacceptable state. We run toward challenges. We treat your success as our own.
- **Stats Section:** 250+ Experts | 1,000+ Projects | 4.9/5 CSAT | 4–5 yr Avg. Relationship | 900+ Certifications | SOC 2 Certified
- **CTA Band:** Ready to work with a team that stays? ' Let's Talk

6.2 Social Responsibility

URL: /about/social-responsibility | **SEO Title:** Social Responsibility | Oktana's Mission & Community Impact

Meta: Oktana's mission is to bring economic opportunity to communities across Latin America and the U.S. Learn how our work creates impact beyond the org chart.

- **Hero Headline:** We build great technology. And the communities that create it.
- **Hero Body:** Oktana's mission has always been about more than Salesforce. We believe that world-class engineering talent exists in every community — and that a company built on that premise makes everyone better off. Our delivery centers across Latin America aren't just offices. They're economic opportunity, career development, and community investment.

- **Impact Pillars:**
 - **Economic Opportunity:** We create meaningful, high-skill careers in growing communities across Latin America — careers that would otherwise require relocating to major tech hubs.
 - **Great Places to Work:** Our Paraguay office is certified as a Great Place to Work. We invest in culture, training, and benefits because we believe that happy engineers build better software.
 - **Continuous Learning:** Every Oktana team member has access to Salesforce Trailhead, internal training programs, and supported certification paths. We pay for growth.
 - **Community Giving:** Oktana supports local education initiatives and technology access programs in our operating communities.
- **Quote:** "We started Oktana because we believed that if you give talented people the right environment and opportunity, they'll build incredible things. Every project we deliver is proof." — Jaime Solari, CEO
- **CTA Band:** Curious about joining a company with a mission? ' View Open Roles

6.3 Compliance & Security

URL: /about/compliance | **SEO Title:** SOC 2 Compliance & Data Security | Oktana

Meta: Oktana is SOC 2 certified and maintains a rigorous data security and compliance program. Onshore resources available for HIPAA, FedRAMP, and regulated environments.

- **Hero Headline:** Your data is safe with us. We can prove it.
- **Hero Subheadline:** For regulated industries, trust isn't a differentiator — it's a requirement. Oktana's SOC 2 certification and compliance program means you can engage a nearshore partner without compromising your data security posture.
- **Compliance Highlights:**
 - **SOC 2 Type II Certified:** Our security controls are independently audited and verified. We don't just claim security — we prove it.
 - **Onshore Resources Available:** For healthcare, public sector, and highly regulated financial environments, we offer U.S.-based onshore teams.
 - **Salesforce Best Practices:** We code and architect with Salesforce security best practices on every engagement — no shortcuts, no workarounds.
 - **Data Governance:** We help clients design and implement data governance frameworks that satisfy regulatory requirements and enable AI safely.
- **CTA Band:** Need to review our compliance documentation? ' Contact our Security Team

7. Resources Pages

7.1 Success Stories Hub

URL: /success-stories | **SEO Title:** Client Success Stories | Oktana Salesforce Partner

Meta: Read how Oktana has helped enterprises across Healthcare, Fintech, High Tech, and more deliver Salesforce outcomes that last. 1,000+ projects. 4.9/5 CSAT.

- **Hero Headline:** 1,000+ projects. Countless outcomes. Here are some of our favorites.
- **Hero Subheadline:** Every engagement is different. Every result is real. Explore how we've helped companies across industries unlock the value of Salesforce — and keep coming back.
- **Filters:** Industry (All | Healthcare | Financial Services | High Tech | Nonprofit | Public Sector | Consumer Goods) | Service (All | AI | Implementation | Managed Services | MuleSoft | Staff Aug | UI/UX)
- **Story Card Format:** Client (anonymized or named) | Industry tag | Service tag | 2-sentence challenge/outcome | "Read the story ""
- **Featured Stories (from existing Oktana content):**
 - Building a scalable API developer community with MuleSoft Anypoint
 - Complex call center deployment with global GSI partner
 - QA test automation for U.S. fintech company
 - Enhancing a top employment review platform's user experience
- **Bottom CTA:** Want to be our next success story? ' Talk to Our Team

7.2 Contact Us

URL: /contact | **SEO Title:** Contact Oktana | Start a Salesforce Conversation

Meta: Ready to talk Salesforce? Contact Oktana's team of Summit-tier experts. We respond within one business day.

- **Hero Headline:** Let's figure out what you need.
- **Hero Subheadline:** Whether you have a fully scoped project or just a gut feeling that your Salesforce org could be working harder — we're happy to start the conversation. No commitment. No pressure. Just expertise.
- **Form Fields:** First Name | Last Name | Company | Job Title | Email | Phone (optional) | Message / What are you working on? | How did you hear about us?
- **Form CTA Button:** Send My Message '
- **Trust Reinforcement (beside form):**
 - We respond within 1 business day
 - No long-term contracts required to get started
 - Free discovery call — no pitch deck, just conversation
 - 4.9/5CSAT | 4–5 year avg. customer relationship
- **Alternative Contact:** Prefer email? Reach us at hello@oktana.com | LinkedIn: linkedin.com/company/oktana

8. SEO & Technical Recommendations

8.1 SEO Strategy

- **Primary keyword clusters:** "Salesforce consulting partner," "Salesforce Summit Partner," "nearshore Salesforce development," "Agentforce implementation," "Salesforce staff augmentation," "MuleSoft consulting," "Salesforce Data Cloud implementation"

- **Industry keyword clusters:** "Salesforce for healthcare," "Salesforce fintech," "Salesforce for nonprofits," "Salesforce government," "Salesforce SaaS companies"
- **Long-tail targets:** "Salesforce managed services nearshore," "Salesforce org health assessment," "Agentforce implementation partner," "nearshore Salesforce developer team"
- **Structured data:** Organization schema, BreadcrumbList, FAQPage on service pages, LocalBusiness for delivery center locations
- **Core Web Vitals:** Target LCP < 2.5s, CLS < 0.1, INP < 200ms. Optimize images, defer non-critical JS, use CDN.
- **GEO (Generative Engine Optimization):** Write service page content in a question-answer format where appropriate to improve visibility in AI-generated search summaries (ChatGPT, Perplexity, Google AI Overviews).

8.2 Technical Recommendations

- **CMS:** Continue with WordPress or migrate to a headless CMS (Contentful, Sanity) for better performance and developer experience. Webflow is a strong alternative for design flexibility without sacrificing performance.
- **Analytics:** Google Analytics 4 + HubSpot tracking for CRM lead attribution. Set up conversion events for form submissions, CTA clicks, and scroll depth.
- **Chat / Conversion:** Implement a lightweight chat widget (HubSpot chat or Drift) on high-intent pages (Contact, Service pages, Industry pages). Qualify leads before routing to sales.
- **Personalization (Phase 2):** Use HubSpot smart content or a tool like Mutiny to display industry-tailored hero content based on visitor company industry (via IP lookup). High-ROI once traffic scales.
- **Page Speed:** Use WebP images throughout. Lazy-load below-the-fold images. Minimize render-blocking resources. Aim for a Lighthouse performance score above 90 on mobile.

9. Content & Launch Checklist

- Homepage — finalized copy, hero image, and stats verified
- 7Service pages — hero, deliverables list, CTA verified
- 6Industry pages — tailored copy and relevant success story linked
- About Us — leadership team photos updated, timeline verified
- Social Responsibility — Paraguay GPTW certification noted, current initiatives updated
- Compliance — SOC 2 certification date verified, downloadable one-pager created
- Success Stories — minimum 6 stories live at launch, with industry and service tags
- Blog — at least 10 recent posts indexed, category filters working
- Contact page — form connected to CRM (HubSpot), confirmation email configured
- All CTAs — tested and tracked as conversion events in GA4
- Mobile QA — all pages reviewed on iOS Safari and Android Chrome
- SEO — meta titles/descriptions set for all pages, XML sitemap submitted
- Salesforce Summit Partner badge — verified current, displayed on homepage and footer

- SOC 2 badge — displayed on homepage, compliance page, and relevant industry pages
- Redirect map — all old URLs mapped to new URLs (301 redirects)
- LinkedIn — updated company page URL and bio to match new site messaging
